## September 2023

### September Meeting:

Welcome back for another year of exciting and informative meetings! TMTA Waterloo encourages all members to attend and bring a guest, bring your rising star, your newest hire, your parts professional or anyone you feel would benefit from seeing all our industry has to offer.

The September 7<sup>th</sup> meeting will be presented by Darrin Young, Central Canada Account Manager for **HENDRICKSON**, a leading global manufacturer and supplier of medium and heavy-duty mechanical, elastomeric and air suspensions: integrated and non-integrated axle and brake systems. Darrin will present the features and maintenance requirements of the industry leading **TIREMAXX** tire inflation systems, tire pressure control solutions can pay for themselves with savings from increased fuel mileage, reduced tire maintenance and replacement costs and prevention of tire failure leading to downtime and costly road service.

As well the **HENDRICKSON Zero Maintenance Dampening System (ZMD)** making major strides in the trailer suspension industry as a go to system for the INTRAXX and VAN applications is well worth reviewing for your trailer specifications will be explained. Please bring any and all other HENDRICKSON product questions and information questions you have. Darrin will be sure to have those questions answered.
